About the Author:

Born in Turin in 1956, travel agent by profession.

The passion for photography goes back to my childhood, when I received as a gift a Ferrania camera in pure plastic followed by increasingly modern and sophisticated devices, up to the digital age.

In 2004, the very advent of digital technology has rekindled this passion that, for some time, had abandoned me. The next step was the "Post-production". In this technique I think I've found my ideal location in the world of visual arts by transforming with soft or drastic changes the original photograph according to the perception I have of the subject, sometimes during shooting and sometime during the

post-production.

Now photography represents for me the mean to procure the subjects that will become the artworks that I like to define Images!

It is possible to verify the integrity of the Digital Certificate at any time uploading the “zip” file within the appropriate section on the ArtID website.
